NUMBER OF EMPLOYEES 1

STATEMENT BY FIRM Schonewald Engineering Associates, Inc. (SchonewaldEA) was founded by Isabel V. (Be) Schonewald, P.E. in March 2009. Though a relatively young company, Be brings over 29 years of geo-engineering experience to SchonewaldEA's clients. During her professional career, Be has specialized in geotechnical engineering efforts in support of transportation, industrial, commercial, and environmental remediation projects. Her work has included geotechnical evaluation, design (ASD and LRFD design platforms), and construction support; geotechnical instrumentation system design, installation, and monitoring; earthwork and geosynthetic design, analyses, and construction support; as well as solid waste, site civil/stormwater, and geoenvironmental design and permitting. Prior to establishing SchonewaldEA in 2009, Be gained valuable technical and management experience with leading regional geoenvironmental consulting firms, including multiple school, correctional facility, and other public facility project experience. Ms. Schonewald is a licensed professional engineer in Maine. SchonewaldEA is a SBA Woman-Owned Small Business and a MaineDOT Certified W/DBE firm. SchonewaldEA is pre-qualified by MaineDOT to provide geotechnical design- and construction-related. SchonewaldEA is experienced addressing challenges posed by adverse soil and environmental conditions. Be is EH&S trained and OSHA HAZWOPER certified.
